OUR MISSION

CITY ON A HILL TRANSFORMS
CITIES AND FAMILIES BY
RESTORING HOPE, ENHANCING
QUALITY OF LIFE, AND
ADVANCING JUSTICE FOR ALL
GENERATIONS.

2024

A YEAR OF HEALTH AND WELLNESS

This year, City on a Hill reached a transformative milestone in our mission to create lasting change in Milwaukee's communities and address the challenges of childhood poverty. We proudly unveiled our newly renovated 10,000-square-foot Health and Wellness Center, a state-of-the-art facility designed to provide comprehensive care and support for individuals and families in need.

This center is more than just part of a building; it is a beacon of hope and prosperity. Within its walls, patients can access life-changing medical care, vital dental services, and compassionate behavioral health support, all delivered with dignity and respect. By addressing both physical and mental health, the center aims to break down barriers to care and promote holistic well-being.

The Health and Wellness Center represents years of dedication, collaboration, and community support. It is a powerful step forward in our efforts to reduce the disparities that affect so many in our city. Already, it is making a tangible difference in the lives of the children, families, and individuals who walk through its doors.

As we celebrate this achievement, we remain deeply committed to the work ahead. Your generosity and partnership make this progress possible, helping to create a brighter, healthier future for the Milwaukee community.

THANK YOU

City on a Hill would not exist if it weren't for the amazing people we met along the way. From the beginning it has been our mission to eradicate poverty in all of its forms; an ambitious goal that means everything to us.

We've achieved massive successes in our community but there is still a clear need to continue our work.

Our work is too important. Join us as we work to achieve even greater impact this new year.
